Personal Portfolio

Professional Summary

Full Stack MERN Developer

Karnal , Haryana

Specializing in Real-Time Systems, AI Integration & Scalable Web Apps

- Full Stack MERN Developer with hands-on experience building production-ready applications featuring real-time systems, AI integration, and cloud deployment. Skilled in React.js, Node.js, MongoDB, and REST API development. Passionate about scalable architecture, performance optimization, and shipping polished user experiences.

Technical Skills

Programming Languages: JavaScript

Frontend: React.js, Tailwind CSS, Framer Motion, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Deployment & Tools: Git, GitHub, VS Code, npm, Postman, Vercel, Render, Cloudinary

Projects

Reverto | *React, Tailwind, Node.js, Express.js, MongoDB, Firebase, Cloudinary*

GitHub | **Live**

- * Built a full-stack Lost & Found platform serving 50+ users with claim verification reducing false claims by 30%.
- * Implemented a claim verification system with score-based matching (0–100) to reduce fake claims and improve trust.
- * Developed secure JWT authentication, dashboards, and REST APIs for managing lost items, found items, and claims
- * Deployed the application on Vercel (frontend) and Render (backend) with Cloudinary for optimized image storage and delivery.
- * Implemented Google OAuth authentication using Firebase alongside JWT for secure session management and protected route access.

Qless | *React, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase*

GitHub | **Live**

- * Built a multi-tenant SaaS application supporting 3 user roles (Admin, Staff, Customer).
- * Designed 6+ MongoDB collections and implemented 25+ REST API endpoints.
- * Developed 10+ responsive pages with React, Tailwind CSS, and Framer Motion.
- * Implemented 5+ core modules: Organizations, Queues, Tokens, Memberships, and Notifications.

Presentio | *React, Node.js, Express.js, MongoDB, Tailwind, Groq Api, Framer Motion*

GitHub | **Live**

- * Developed Presentio, an AI-powered presentation generator using React, Node.js, and MongoDB with Groq API integration.
- * Built secure JWT authentication for Presentio with protected routes, deployed on Render and Vercel.
- * Designed Presentio's pixel-perfect UI with TailwindCSS and Framer Motion featuring 4 custom themes.
- * Integrated per-slide AI image generation reducing presentation creation time by 60%.

Certifications & Training

Samsung Innovation Campus

Dec 2025 – March 2026

AI Research Agent - Team Project

- Collaborating in a team to develop an AI-powered RAG (Retrieval-Augmented Generation) tool for querying private documents efficiently.
- Implementing LLM-based pipelines to fetch and summarize information securely from internal datasets.

Education

SD Adarsh Public School

March 2022 – May 2023

XII - CBSE

Karnal, Haryana

Pt Chiranjilal Sharma Government College / Kurukshetra University

2023 – 2026

Bachelor of Computer Application | Final Year Exams Appeared, June 2026

Karnal, Haryana
